

**Qualification & Reliability Testing, Design Verification,
Calibrations**

e-Newsletter July 2005

Dear Customer,

Welcome to the July '05 edition of Experior Photonics' e-Newsletter on fiber optic industry news & updates on our fiber optic component testing and calibration services.

**Experior Photonics now ISO/IEC-17025 accredited
for the calibration of fiber optic test instruments**

Is your company one of those that still sends its fiber optic test instruments back to the OEM for calibration while faced with long lead times and high prices? Experior Photonics specializes in, and is accredited for, the calibration of fiber optic test instruments. How does this sound to you:

One Stop Shop - 1 to 3 Day Turn Around - Much Lower Cost.

**New work project in the SAE develops guideline
document for fiber optics in non commercial aircraft**

Many platforms including various military aircraft are using fiber optic networks for a suite of functions. A new effort within the SAE AS-3 JELLI-Group (<http://aerospace.sae.org/>) now seeks to bring best practices and standardized procedures together into one series of documents. JELLI stands for **J**umpers, **E**ndfaces, **L**ink-**L**oss, and **I**nspection. To learn more click [here](#)...

Thank you for your interest, stay tuned...

Very truly,

Lorenz Cartellieri
President

Chairman TIA SC FO-4.5 (Fiber Optic Metrology)
Member SAE AS-3 (Fibre Optics and Applied Photonics)
