

Design Verification and Qualification Testing of Fiber Optic Components

Dear Phillip:

Welcome to the October '08 edition of Exterior Photonics' e-Newsletter on fiber optic news & updates on our fiber optic component testing and calibration services

Exterior Photonics now authorized by Tempo Greenlee for instrument calibrations and repair

Exterior Photonics is an independent and authorized service center for all Rifocs / Tempo modular optical fiber instruments. This encompasses calibration and repair services for these instruments. [Click here](#) to learn more about the new instrument calibration and repair services...

Exterior Photonics obtains approval for certain optical fiber tests to MIL-PRF-49291 by DSCC

Exterior Photonics, Inc. has been approved by DSCC (Defense Supply Center Columbus) for QPL testing of MIL-PRF-49291 optical fibers. The approval includes certain tests that are required during the qualification / periodic re-qualification of such singlemode and multimode fibers. [Click here](#) to learn more about this new approval...

Verizon approval for qualification testing of field mountable connectors added

Exterior Photonics has been authorized and listed by Verizon Communications for conducting qualification tests of field mountable fiber optic connectors to Telcordia GR-1081 and specific Verizon requirements to VZ.TPR.9447. A listing of specific Verizon requirements can be found by clicking here: [Click here for Verizon Technical Purchasing Requirements](#)
